Chartreuse Tanuki and Black Silver Fox, Angel Hair

Hackle – Teal Blue cock

Eyes – Jungle Cock

Head – Eumer Black Cone

Refer to the section on tubes to make the tube. Secure the tube in the adapter with the tube liner extending 10mm at the front. Tie in the thread on the inner tube and form a smooth ramp. Take the thread onto the outer tube and wind down to where the inner tube finishes at the back tying in a length of Silver Oval as you go down. Wind the thread forward 3mm and then wind the Oval up to here to form the tag, tie in and trim off. Tie in small bunches of Blue and Chartreuse Polar Bear for the tail. Tie in lengths of Silver wire and Silver Holo and take the thread to the midpoint binding everything in, trim the waste. Wind the Holo up to here forming the rear body. Dub the thread and wind up to the top of the outer tube forming the front body. Rib with the Wire, tie in and trim off. Take the thread onto the inner tube and tie in a Chartreuse cock hackle by the tip, double and wind 3 turns. Tie in an underwing of Blue and Chartreuse Polar Bear. it should just reach the end of the hook. Now tie in layers of Teal Blue Arctic Fox, Chartreuse Tanuki and Black Silver Fox. Between each layer add some strands of Silver and Blue Angel Hair. Each layer of the wing should be slightly longer than the preceding one. Spread each layer to produce the teardrop shape. Trim off all the waste. Prepare a Teal Blue cock hackle and tie in by the tip, double it and wind 4 turns Tie in a pair of Jungle Cock eyes. Tie off and whip finish.

Slide the cone onto the protruding tube liner, cut to 2mm and flame over the end to secure the cone.
