

## BRIGHT NIGHTS

Hook - Silver  
Tag - Silver oval  
Tail - Sky Blue DNA  
Rib - Silver wire  
Rear Body - Holographic silver mylar  
Hackle - Silver Doctor Blue badger cock  
Rib - Silver wire  
Front Body - Black floss  
Wing - Guinea Fowl covert dyed blue  
Flash - Micro Pearl Krystal Flash  
Cheeks - Jungle cock  
Hackle - Silver Badger cock

Secure the hook in the vice. Tie in the thread and wind down to the point tying in a length of Medium Silver Wire. Wind the Wire 4 turns backwards to form a tag, take the wire between the 2 hooks and pull back towards the head. Secure with the thread. Cut a small bunch of DNA and tie in for the tail. Tie in a length of Small Silver wire and a length of flat Holo Silver, take the thread to the midpoint trapping in everything and trim off the waste. Wind the tinsel up to here forming the rear half of the body. Rib with the wire and trim off. Tie in a SD Blue cock hackle by the tip, double it and wind 4 turns. The hackle should reach just beyond the end of the hook. Take some turns of thread over the base of the hackle to slope it backwards. Tie in a length of Silver wire and a length of Black floss. Take the thread back to the head binding everything in and trim the waste. Wind the floss up to the head forming the front body. Rib it with the wire and trim off the waste. Rip a section of fibres from a Guinea Fowl feather, choose a feather with the straightest fibres you have. Tie these in as a wing just reaching the end of the hook. Tie in 4 strands of Pearl Micro Krystal Flash the same length over the top. Bind down and trim the waste at a taper. Prepare a pair of Jungle Cock eyes and tie in. Tie in a Silver Badger cock hackle by the tip. Double it and wind 3 turns, this hackle should be shorter than the mid hackle. Form a smooth head. Apply a thin coat of superglue and when dry apply a coat of nail varnish.
